## PROJECTS

---

- **Disney plus clone**  
Created this project in my learning journey of React JS  
Using (Redux , FireBase)
- **Super Mall E-commerce Website**  
An online store for buying products ( market, furniture, electronics) the project developed using ( React JS , Redux ) for the front end and for the backend I used (PHP-Laravel)  
-Website And Dashboard
- **Restaurantly**  
A delivery website for a restaurant where the customer can order online and determine his location using a real map. The project developed using ( React JS , Redux for the "add to cart" functionality) for the front-end , and for the backend (PHP, Laravel)  
Website and Dashboard
- **Dolce & Salato**  
Contributed to the design and development of the Dolce & Salato website. Utilized Html, CSS , Bootstrap , and React Js to create a responsive and user-friendly interface, enhancing the overall user experience.

Collaborated with designers to implement visually appealing layouts and optimized site performance for improved loading times and accessibility.
